

ARTICULATION AGREEMENT BETWEEN
THE SCHOOL OF PUBLIC AND ENVIRONMENTAL AFFAIRS
AT INDIANA UNIVERSITY
AND
MIAMI-DADE COMMUNITY COLLEGE

The School of Public and Environmental Affairs (SPEA) at Indiana University and Miami-Dade Community College (M-DCC) hereby enter into the following articulation agreement governing the matriculation of Associate of Arts or Associate of Science graduates from M-DCC at Indiana University's School of Public and Environmental Affairs beginning in the Fall term of 1998 and continuing for a period of four years, after which both institutions will undertake renegotiations of the agreement.

For Miami-Dade Community College A.A. or A.S. graduates admitted to Indiana University's School of Public and Environmental Affairs during the period of this agreement, Indiana University's School of Public and Environmental Affairs will:

Accept students with 56+ transferable semester hours as having junior status, with the understanding that students who enter a different program at Indiana University will need to have their courses re-evaluated in reference to degree requirements for non-SPEA degrees.

2. Accept the 36 required general education credits at M-DCC, including those within the interdisciplinary core curriculum, applying them toward the equivalent lower division general education requirements of the school.
3. All course work completed with a grade of "C" or better will be considered for transfer credit.

During the period of this agreement, Miami-Dade Community college will:

1. Publicize the agreement among its students and faculty;
2. Make materials describing the recommended AA/AS curricula for the Bachelor of Science in Public Affairs and the Bachelor of Science in Public Health available to students through M-DCC's Career and Transfer Centers on each of its campuses.
3. Review the performance of the M-DCC graduates who matriculate at Indiana University's School of Public and environmental Affairs, assessing the students' academic preparation and the success of the general education core courses.

During the period of this agreement, both institutions agree to:

- Monitor the academic performance of students enrolling under the agreement, identify problems, and work cooperatively to adjust details of course sequence and content so that students can transfer with no academic disruption.
2. Arrange articulation meetings to develop major course equivalencies between Indiana University's School of Public and Environmental Affairs and M-DCC;
 3. Notify each other concerning any contemplated curricular changes which would affect the future of this agreement.

Recommendations for Miami-Dade Community College

The following information is designed to facilitate the transfer of students from Miami-Dade Community College to Indiana University - Bloomington campus' School of Public and Environmental Affairs (SPEA). If students elect to come to Indiana University and enter a different program, the Miami-Dade courses will need to be reevaluated in reference to degree requirements for the proposed non-SPEA degree. Only courses with a grade of C or better will be accepted by Indiana University. The chart below lists the general education requirements for the Bachelor of Science in Public Affairs (BSPA) degree with a suggested M-DCC course to meet specific requirements.

SPEA Requirements for the BSPA

Freshman English (3 cr.)

Professional Writing (3 cr.)
